

# New Holland TT Series Tractors

42- to 59-PTO hp

## Tough on work. Easy on your wallet.

The new TT55 and TT75 utility tractors from New Holland tackle your toughest jobs at an affordable price.

### New convenience

You'll appreciate the added comfort and operating ease provided on these "economy" tractors. The roomy step deck features suspended brake and clutch pedals for added legroom and an uncluttered path on and off the tractor. Controls are positioned where they're easy to reach, and the contoured seat and tilt steering wheel adjust for your comfort. In addition, the ROPS folds down when needed, allowing you to operate or store the tractor in areas with low clearance.\*

### Proven dependability

You select the horsepower and configuration that best matches your needs—2WD, 2WD low-profile or FWD. All models feature reliable, time-proven engines, axles and transmission to add to your peace of mind.

### Check out these competitive advantages

- Best-in-class 23.5-gallon steel fuel tank allows for longer operation between fill-ups.
- Sloped hood provides superior visibility.
- Flip-up hood provides complete service access without the use of removable panels or grills that can get lost or damaged.
- Independent 540 PTO is more desirable than a live PTO.
- Impressive 2,954-pound 3-point lift capacity.
- Wet disc brakes work reliably and last longer than dry-band brakes.
- Add the optional 7310 loader to lift loads up to 2,035 pounds.

Discover the extra value and convenience of the TT Series tractors firsthand at your New Holland dealer, the tractor specialist.

\* New Holland recommends the ROPS remain in the up position during normal operations and the operator have the seat belt securely fastened. If the ROPS is folded down, the operator should unbuckle the seat belt.

# TT Series Tractors

The TT Series hood flips up easily for convenient access to the engine. There are no side shields or grill to remove.

The TT Series sloped hood not only looks good, it provides outstanding visibility to the work around you.

The uncluttered, open platform gives you plenty of legroom and a clear path on and off.
